

“Plasflow Limited will achieve customer satisfaction through a total commitment to improvement in all aspects of our business, through the development of our people, processes and services to ensure they consistently meet or exceed requirements, whilst minimising impact on the environment.”

Our EQMS statement demonstrates our commitment and fundamentally focuses on our key business target of achieving customer satisfaction. The policy prescribes the method by which we accomplish this through the continual improvement in all aspects of our business, the development of people, processes, products and services to ensure they consistently meet and where possible exceed Customer Requirements.

Our principle activities include the manufacture of bespoke fabrications in polyethylene, polypropylene and PVDF.

We recognise that our operations have an impact on the local and regional environment. As a consequence of this, the management is committed to continuous improvements in environmental performance, the prevention of pollution and protection of the environment.

Our policy acts as a benchmark for providing the direction of Plasflow Limited and a framework to establish and review our business objectives, which are determined at regular Management & Departmental Review Meetings.

- The company maintains that a primary part of its corporate environmental strategy is sustainable waste management and as such recognises its

responsibilities to minimise waste through reuse and then recycling of materials whenever possible.

- Environmental regulations, laws and codes of practice will be regarded as setting the minimum standard of environmental performance.
- We aim to implement our policies through a coordinated ISO 14001 environmental management system.
- In order to reduce energy consumption, we will endeavour to invest in improved energy efficiency of products we use and sell.
- Through efficient use and careful planning, we will conserve resources. Prioritising reduction in waste to landfill and paper & energy use in line with the company environmental aspects and impacts.
- We will work with our suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.
- The company will set and frequently review environmental targets and goals designed to improve our environmental performance.
- Through coordinating purchasing and delivery schedules this company seeks to realise the dual benefits of reduced fuel consumption and lower exhaust emissions

Plasflow Limited shall endeavour to ensure the EQMS Policy is communicated and understood at every level of the organisation through documented training and regular communication to be reinforced at annual business performance reviews.

Continual communication shall signify to all Plasflow employees the implications of meeting customer, as well as, regulatory standards and requirements.

Our policy statement is controlled by the inclusion in the Quality Manual and is reviewed annually during Management Review Meetings to ensure it's continued suitability to the Plasflow Quality Management System and Business operations.
